Fees and costs

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns. For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from $100,000 to $80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You or your employer, as applicable, may be able to negotiate to pay lower fees.[1] Ask the fund or your financial adviser.

To find out more

If you would like to find out more, or see the impact of fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (moneysmart.gov.au) has a superannuation calculator to help you check out different fee options.

[1] This text is required by law, but our fees can't be negotiated.

Any amount charged in excess of that cap must be refunded.

[2] The figures shown are estimates based on expenses for the period ending 30 June 2026, calculated each year in arrears. Investment fees and costs include an amount of 0.00% to 0.07% for performance fees based on the average performance fees for the five years to 30 June 2026. The calculation basis for these amounts is set out in the *Additional explanation of fees and costs* on page 5.

Additional explanation of fees and costs

Changes to fees and costs

We may change the fees or introduce new fees without your consent. You'll be given at least 30 days' notice before any increase to administration fees or other fees, such as insurance fees or activity fees. Keep your contact details up to date so you receive notice of any changes.

Estimated investment fees and costs, such as transaction costs, may vary from year to year without prior notice.

Fee cap refund

If your account balance for a product offered by the superannuation entity is less than $6,000 at the end of the financial year, certain fees and costs charged to you in relation to administration and investments are capped at 3% of the account balance. Any amount charged in excess of that cap must be refunded.

Administration fees and costs

Administration fees and costs deducted from your account are allocated to the CBUS administration reserve. In some years, we may spend more from the administration reserve than is paid into it in administration fees and costs from members' accounts. For 2025/26, this excess amount was 0.04%. This amount is paid from the reserve and not deducted from your account. Amounts deducted from the reserve may include Trustee fees.

The benefits of any tax deductions for administration fees and costs are not passed back to member accounts directly but are instead used to reduce the net costs paid out of the administration reserve after they have been paid.

You can see any fees and costs deducted directly from your account by logging into your account at **cbussuper.com.au/login**. They will also be shown on your annual statement or exit statement (if you leave the fund).

Trustee fee

The Trustee (appointed to manage the super fund on your behalf) is entitled to charge a fee to CBUS, which the Trustee may apply towards some of its costs.

This fee is intended to be paid from the Fund's existing reserves and, as such, won't impact your investment return. The Trustee fee will not increase the fees you pay.

Limits apply:

- **Two-year cap:** the amount charged within two financial years can't be more than 0.10% of CBUS's net assets.
- **Total funds cap:** the fee can't be charged if the Trustee already holds an amount equal to or more than 0.14% of CBUS's net assets.

Tax

For information about the impact of tax, read the *How super works* guide at **cbussuper.com.au/superworks**.

Insurance fees

The cost of your insurance will depend on the type of cover you have, your age, and your occupation category (if applicable). For more information refer to the relevant insurance guide, available at **cbussuper.com.au/pds**.

Advice fees

We provide access to in-person and online education sessions and seminars at no additional cost. You can also access three levels of personal advice, including one option (Advice Essentials) at no additional cost.

- **Advice Essentials** is simple personal advice about your existing CBUS account. There is no additional cost for this service, it's included as part of your CBUS membership. The cost of making this advice available to members is included in CBUS's administration fees and costs.
  The team can provide you with advice over the phone on the following topics.
  - choosing the right investment option,
  - which type of contribution to make,
  - starting a super income stream, and
  - transition to retirement.
- **Advice Essentials Plus** is available if you are aged 60 and older and includes everything under Advice Essentials with the addition of strategic personal advice for you (and your partner if you choose) to improve your retirement outcomes. A set fee of $990 (incl GST) applies for this service. This will be discussed with you and will only go ahead if you agree beforehand.
- **Comprehensive advice** is available for matters beyond superannuation, along with your super and retirement needs. It's provided by an external financial adviser who meets strict professional qualifications and service criteria set by us and the Financial Advice Association Australia (FAAA). This service covers more complex financial matters and includes a full-service offering with ongoing yearly support if needed. A fee will apply for this service and will be discussed and agreed with you in advance before proceeding.

Advice Essentials and Advice Essentials Plus are provided by United Super Pty Ltd ABN 46 006 261 623 AFSL 233792. Refer to the **Financial Services Guide: Personal Advice** for more information.

Transaction costs

Transaction costs relate to the buying and selling of investments in our Pre-mixed and DIY investment options. They may include third party costs such as:

- settlement costs,
- stamp duty,
- clearing costs,
- foreign exchange costs,
- brokerage,
- buy-sell spreads, and
- costs incurred by an interposed vehicle that would be a transaction cost we incur.

As we don't charge a buy-sell spread, transaction costs are deducted from investment returns before the crediting rate is applied to your account. Estimated transaction costs for each investment option are shown in the table on the next page. Transaction costs include an amount for stamp duty. This amount is equal to one-seventh of the total stamp duty incurred during the 2025/2026 financial year (ending 30 June 2026).

Transaction costs aren't relevant for our CBUS Self Managed investment option, but activity related fees and costs do apply for holding, buying, or selling investments through CBUS Self Managed investment option (see page 8).

Investment fees and costs

Investment fees and costs are the cost of managing your CBUS investments in our Pre-mixed or DIY investment options.

The fees and costs vary depending on the Pre-mixed and/or DIY investment option you select and are paid from investment earnings before they're added to your account.

Investment fees and costs may change from time to time because of changes in performance and/or other investment-related fees and costs from year to year.

Investment fees and costs aren't relevant for our CBUS Self Managed investment option, but activity related fees and costs do apply for holding, buying, or selling investments through CBUS Self Managed (see page 8).

Performance fees

Some of our external investment managers for our Pre-mixed and DIY investment options may be entitled to a performance fee. As well, managers of interposed vehicles in which our investment options are invested may charge performance fees. Performance fees are generally calculated as an agreed percentage of any investment performance above an agreed hurdle rate. Unless specified otherwise, the performance fees in the *Estimated fees and costs for each investment option* table are the average of the performance fees attributable to each investment option for the last five financial years to 30 June 2026.

Past performance fees are not a reliable indicator of future performance fees.

Performance fees don't apply to the CBUS Self Managed investment option.

For more information on crediting rates and the allocation of investment earnings, read our *Investment guide* available at **cbussuper.com.au/pds**.

Estimated fees and costs for each investment option

The table below can be used to help you understand the amount of investment fees and costs and transaction costs that may apply to your chosen investment option(s).

The figures are shown as a percentage of the amount invested in each investment option. It's important to bear in mind that they are estimates, based on expenses for the financial year ending 30 June 2026. This means the fees and costs that apply to your account may be different to the ones shown here.

The actual investment fees and costs and transaction costs that apply to your account are worked out at the end of each financial year, and are included in your 30 June statement.
